The high-quality meat for our burgers originates from a unique,
local herd of "Brandrode Runderen" from Lattrop-Breklenkamp.
The herd is cared for with respect and dedication in their natural habitat.

A true 'cow's life' outdoors, where the calves stay with the cows.

You can taste the difference! They graze on herb-rich grass,
without the use of artificial fertilizers, pesticides or preventive antibiotics.

It's all fully sustainable. This ensures biodiversity and a healthy soil.

The slaughter, aging and processing are done in our own butchery.
